

CALLING ALL VETERANS:

IUPUI understands the dedication that you signed on for when you took the oath of service. In honor of this dedication, we developed this military-related themed learning community, taught by veterans, for all U.S. Service Members. Take courses and build camaraderie with your peers here at IUPUI in this themed learning community!

Continuing to Serve: the Military Connection

From emergency response and disaster relief to volunteering with community organizations the multiple skills of military veterans are often the key elements of success. This themed learning community, taught by veterans, examines the connection of public service agencies and philanthropy while making veterans aware of services available to them as they transition to the civilian world.
